JAY KHODIYAR

Machine Tools

Briquetting Plant – Solves Environmental Issues

- Briquetting Plant
- Briquetting Types
- Briquetting Press Machine Uses
- Briquetting Machine Setup Cost
- Biomass Briquetting Plant

JAY KHODIYAR Machine Tools

Briquetting Plant

- Our Briquetting Plant is best suitable for converting Agro-forestry waste to Bio-coal / Briquettes
- The production capacity of our briquetting plant is 1000-1500 kg/hr, >2000 kg/hr
- The plant is perfect for those industries who require medium production briquettes as it is energy efficient, durable and robust in design

JAY KHODIYAR Machine Tools

Types of Briquettes

- Peat Briquettes
- Biomass Briquettes
- Sawdust Briquettes
- Charcoal Briquettes
- Paper Briquettes
- Pini Kay Briquettes
- Nestro Briquettes
- RUF Briquettes

JAY KHODIYAR Machine Tools

Briquetting Press Machine Uses

Briquette Press Machine is supplement to non renewable fossil fuels and is used in several manufacturing industries like kilns, furnaces and boilers.

JAY KHODIYAR **Machine Tools**

Application of Briquetting Plant

- Briquetting Plant for Agro
- Briquette Plant for Food Processing Unit
- Biomass Briquetting For Textile
- Biomass Briquettes for Fuel
- Briquetting For Chemical Plant

JAY KHODIYAR

Machine Tools

Specialized Manufacturer in :

- Biomass Briquetting Plant
- Briquetting Press Machine Plant
- Briquetting Plant Model
- Briquette Plant Project
- Economic Briquetting Plant
- Biomass Briquette Plant & Project

Machine Tools

Countries We Supply

Jordan	Kuwait	Oman
Qatar	Syria	Saudi Arabia
Yemen	UAE	Japan
Kenya	China	England
Nigeria	Zambia	Malaysia
USA	Canada	Nepal
Bhutan	Bangladesh
